LIGHTING SOLUTIONS FOR HIGH PERFORMANCE

Work light of the future

The sophisticated SCANGRIP work lights are second-to-none and made for the real professional who needs the best tool he can get for the task. The full product line-up covers all kinds of work light solutions with superior quality across the entire range. These are lights made for work and built to last.

Latest technologies for best performance

SCANGRIP constantly push back the boundaries of LED lighting and battery technology, creating new cutting-edge work lights. We always reach for that extra brightness, that extra operation time, those little touches that make a real difference when you need the best work light you can get. We guarantee to provide you with only premium products for optimal performance.

Extreme durability and functional design

SCANGRIP work lights are extremely durable and made to last and do the job again and again. The entire product line is sturdy and endures the

really demanding working environment which expose both the professional worker and his tools to rough, wet, and dirty conditions. The lights are covered by a high IP protection level to resist even outdoor use in all kinds of weather.

GO GREEN - A better choice for the climate

SCANGRIP work lights are a choice in a greener direction where the climate impact is minimized on an everyday basis. All our lighting solutions are developed to be energy saving and with a long lifetime.

Whether you compare energy efficiency with traditional technologies or other LED products, you will save energy by choosing a SCANGRIP work light. The LED PERFORMANCE indicates the ac-

tual light output of the LED in a SCANGRIP work light and we aim for the highest number to achieve less power consumption compared to other solutions on the market.

Extended warranty

Every SCANGRIP work light is manufactured at our own factories and subject to strict quality controls. Our lights meet the highest quality standards and are built to last. They are so good that we offer a warranty extension. All SCANGRIP work lights come with a 3-year warranty. Because we stand by the products we offer.

PATENT PROTECTED

Designed by us. Manufactured by us.

// The "ORIGINAL SCANGRIP" symbol is your guarantee that the product is designed, developed and made by SCANGRIP and protected by EU design patent.

High quality

SCANGRIP products are known for high quality with a price-to-quality ratio considered to be the best on the market. We have comprehensive quality check procedures, and we are ISO 9001 certified.

Unique design

SCANGRIP receives strong recognition in the marketplace for unique product design. We are inspired by the concept of Danish design and gather ideas from other industries to create new products that have not been seen before.

Europe's leading manufacturer

SCANGRIP provides the strongest and most comprehensive range of durable and functional LED work lights and is Europe's leading and trendsetting manufacturer of work lighting solutions for professionals.

First-mover

SCANGRIP is first-mover and is always two steps ahead when it comes to developing new and innovative LED work lights.

Since 1906

SCANGRIP has manufactured hand tools of very high quality for the industrial and automotive sectors for more than 115 years.

MAG – Europe's most bestselling work lights even further improved

// The rechargeable handheld work lights everybody knows – and loves! With significantly improved light output, battery upgrade and even more functionality, the popular MAG work lights offer great value in every workshop operation.

The MAG series consist of universal and powerful multipurpose work lights that all professional users must have!

- Significantly improved with higher lumen output
- Integrated work light and flashlight functionality in one
- Strong built-in magnetic holders and retractable hooks for handsfree operation
- New stepless dimmer function

// MAG PRO WIRELESS - more flexibility with wireless charging

MAG PRO comes in a version with the option of wireless charging using the accessory SCANGRIP CHARGING PAD 03.5928, which can be purchased separately. The charging pad offers a convenient and uncomplicated way to charge your work light without the need for extra cables.

The charging pad is designed so that the work light automatically “slides into place” over the powerful magnets on the back. This means that MAG PRO WIRELESS can be charged also in a vertical position. The charging pad is prepared for fixed mounting, enabling efficient use of space in the workshop.

// Updated and more powerful than ever

Taking advantage of the latest high performance LED technology, the MAG range comprises extremely powerful work lights providing significantly improved light output. Compared to the previous MAG 3 and MINI MAG, the new MAG PROs are upgraded to IP54 and have a new design with battery indicator on front.

// Multipurpose with cool design

The characteristic and elegant design of the MAG hand lamps provides an ergonomic and user-friendly grip. Place anywhere you want with the strong built-in magnetic holders and retractable suspension hooks to obtain complete flexibility. The lamp head is flexible and tilts up to 180 degrees.

// Stepless dimmable

MAG PRO, MINI MAG PRO and MAG PEN 3 are upgraded with a stepless dimmer function in the range of 10% to 100% that enables you to adjust the light output to the work task.

HEADLAMPS *for professionals*

// Pursuing the vision of designing innovative work light for the professional end-user

- Illuminates your entire workspace
- Rechargeable
- Long duration time
- Easy to operate
- Sensor function with touchless on/off switch

As opposed to all other headlamps providing a beam of light, the new I-VIEW and ZONE headlamps are designed to provide optimum work light illuminating your entire work area.

Supplied with the newest COB LED technology, both headlamps provide an extremely powerful illumination which spreads the uniform light to the maximum and lightens up your entire field of view.

You avoid turning the head to illuminate your actual workspace from a limited headlamp beam.

NIGHT VIEW – *for work in the dark*

// New headlamp that keeps your night vision

- Designed for work in the dark
- Rechargeable with touchless sensor function
- Illuminates your entire work space
- Durable, sturdy and waterproof
- Switch between normal white light and red light

3
years
warranty

PATENT PROTECTED

// Choose between white and red work light

The red light is intended for work in the dark and provides light without overexposing the retinas while at the same time keeping the eyes adjusted to the dark.

The red-light functionality is mostly known from the military to read maps on maneuvers at night, but is also needed in civilian professions for work at night, for instance on ships and offshore. On ships it is particularly useful on the bridge at night, because it preserves your night vision so you can work at the control panel. Headlamps with red-light mode are also well suited for security guards that work at night in dark surroundings.

// Newest lighting technology

The NIGHT VIEW provides extremely powerful illumination which spreads the uniform light to the maximum and lightens up your entire field of view. You avoid turning the head to illuminate your actual workspace from a limited headlamp beam.

NIGHT VIEW is provided with the very newest rechargeable battery technology with extraordinary long duration, and sets new standards for professional work light. When set on sensor mode NIGHT VIEW is turned on/off only by waving a hand in front of the lamp. Thus, the light can easily be switched on/off, even when wearing thick gloves.

// Small-sized with super powerful illumination

Featuring the latest LED technology, NOVA MINI is incredibly powerful and provides up to 1000 lumen - which is absolutely unique for such a small lamp. NOVA MINI is supplied with a practical on/off button on the side that is also acting as a light control. Adjust the light output with the stepless dimmer function in the range of 10 % to 100 %.

As part of the popular NOVA family, NOVA MINI is based on all the same unique and well-known features that the NOVA series is known for. With its compact dimensions, it is more than twenty times smaller than the NOVA 12K and fits perfectly into your pocket.

// SMART GRIP 4-in-1 system

The lamp is supplied with a special, patented SMART GRIP 4-in-1 system that integrates several multi-functions in the same unit. The ring is based on the functionality you know from e.g. mobile phones which makes it easier and more convenient to keep the lamp in your hand for a long time. It relieves the muscles and increases ergonomics.

The clip is designed to fit the work belt and carry the lamp the entire day, and when both hands are needed for a task, the strong built-in magnet can be used for flexible positioning. Furthermore, SMART GRIP can be used as a stand on any available surface.

EU DESIGN PATENT 5597010

// SCANGRIP POWER SOLUTION

SCANGRIP has taken advantage of new, high performance battery technologies and invented an innovative concept of flexible and reliable power supply. The unique, patented concept is called: SCANGRIP POWER SOLUTION and provides you with unlimited availability to light.

Easily you can insert a new, fully charged battery and continue the work while another battery is charging. Or you can simply add the charger directly to the lamp to get power supply. The integrated battery backup function prevents you from being without light at any time.

// Always light. Never left in the dark

With the new, innovative SPS system you will never experience being completely without light and left in total darkness. No matter how limited your access is to power supply the SPS ensures that you always have the necessary light to carry out your job. SPS provides complete freedom, flexibility and maximum work efficiency.

// Powerful illumination of the entire work site

AREA 10 SPS provides a diffused and non-blinding work light with large dispersion. You can change between 360° and 180° illumination according to the work task and adjust the light output into five different levels by the built-in dimmer function. The compact design with a carrying handle makes AREA 10 SPS extremely handy and easy to move around. It is also supplied with a hook for flexible positioning and can be mounted directly on the SCANGRIP TRIPOD.

// High flexibility and long operating time

AREA 10 SPS is supplied with the innovative SCANGRIP POWER SOLUTION system, providing high flexibility and unlimited availability to light. You can easily exchange the battery or simply add the charger directly to the lamp to get power supply. AREA 10 SPS also has an integrated battery backup function and is supplied with a built-in power bank with USB outlet to charge mobile devices.

// BLUETOOTH light control

With the integrated BLUETOOTH light control, you get an extraordinary possibility to turn on/off the work light and adjust the light output through your mobile device. This feature saves time from manual operation and increases work efficiency on a daily basis.

STANDS and SUSPENSIONS

// Designed for direct mounting of NOVA work lights as well as STAR and AREA 10 SPS without bracket. Made of durable and sturdy powder coated steel for both indoor and outdoor use

// High stability tripod

The SCANGRIP TRIPOD is indispensable for stationary positioning of the work light for illumination in a specific working area. The SCANGRIP TRIPOD is extendable from only 1.35 m up to 3 m which gives you complete flexibility to position the light in the requested height.

The stable construction of the SCANGRIP TRIPOD 3M makes it safe even when fully extended. It is supplied with anchor points that provide an opportunity for extra stability if the tripod is exposed to strong wind or standing on an uneven surface. To increase safety when in use, the cable of the lamp can be fixed in the safety clips placed on each separate leg.

Compliant with iPhone 5 or higher / Android 5.0 or higher. Go to iTunes App Store to download the app or download the app from scangrip.com

// Powerful illumination and BLUETOOTH light control

Based on the newest state-of-the-art LED technology, the SITE LIGHTs provide an extremely high light output and a wide 120° beam angle, ensuring super bright illumination of a large work area. The dimmer function enables you to adjust the light in four different levels, and by using the BLUETOOTH light control app, you can turn on/off the work light and adjust the light remotely through your mobile device. When the work lights are mounted on high masts, this feature reduces the power consumption on an everyday basis as you only use the amount of light necessary to do the job.

// Compact design for easy mounting

The SITE LIGHTs are designed with a built-in handle for easy carrying and mounting on tripod and masts. They are extremely compact and low weight compared to other solutions on the market, which makes the mounting of the work lights more convenient. The SITE LIGHTs come with

10-meter cable and include a DIN14640 connection adapter with bracket for mounting on a tripod.

// Built to do the job at the construction site

The SITE LIGHTs are completely dust and waterproof (IP65) and tolerate all kinds of weather conditions from -25° to +40°C. Featuring high-quality components and active cooling, the work lights have a long lifetime and keep a high performance level throughout the day.

ROPE LIGHT - 25 m flexible rope light providing 20000 lumen

// Illuminate your surroundings and stay safe on the worksite with a practical and legal rope light.

- EMC certified rope light with built-in power supply
- Maximum safety with low voltage (48 V DC)
- No risk of electrical shock
- Made of durable and heat-resistant silicone

// Maximum safety

ROPE LIGHT runs on low voltage (48 V DC), which means that there is no risk of electrical shock if the rope should be accidentally pinched or cut. This distinguishes ROPE LIGHT from all other rope lights on the market, which use 230 V power directly connected with the risk of fatal shocks. Only light ropes operated through a power supply are legal. ROPE LIGHT is made of heat resistant silicone and fully flexible, even in extreme cold down to -20 °C. With IP65, the rope light is suitable for use in humid working environments.

ROPE LIGHT is flicker-free, which means that there is no annoying flicker effect that can be a nuisance during the work and, in the worst case, cause misjudgment of rotating tools. ROPE LIGHT is EMC certified and in compliance with all applicable legislation in the area (EMC directive 2014/30/EU).

// Easy and convenient connection

ROPE LIGHT is delivered on an impact-resistant drum with a practical carrying handle. The power supply is built-in with a fixed 1.5 m connection cable, making it easy to connect to a standard power socket. To avoid overheating, always unwind the light rope completely from the drum before connecting the power. For convenient storage, the power cable can be wrapped around the drum under the light rope when not in use.

Durable silicone bendable down to -20 °C and passed 650 °C glow-wire testing

High IP for use in moist environment

Flicker free

LINE LIGHT – *unique lighting concept*

// LINE LIGHT is a flexible lighting solution for universal application designed for use anywhere where strong, efficient and concentrated light in a specific working area is needed. Now in a new upgraded version with double lumen output.

- Most competitive solution on the market
- “Unbreakable” - extremely sturdy and shockproof
- Waterproof to resist wet and dirty workshop environment
- Low voltage 24 VDC
- Technical lifetime of LEDs 100,000 hours
- Made in Denmark

PATENT PROTECTED

// Bright illumination exactly where you need it

By means of a built-in prism, LINE LIGHT concentrates the light in a 75° beam angle providing an extremely bright and powerful illumination of the specific working area. Blinding during work is avoided, and the lamp itself can be turned to provide the optimum lighting angle.

// Innovative LED technology

The LINE LIGHT series is based on the newest state-of-the-art LED technology and provides much more light compared to the traditional 36 W fluorescent tubes which are commonly used within the industry.

The quality of the light is extremely powerful, like daylight which is optimum for precise recognition of colours, shades and other product details. The uniform, flicker free illumination without strobe effects also minimizes the risk of accidents.

// Extreme durability

LINE LIGHT is constructed by a closed "unbreakable" extruded acrylic profile which makes it extremely sturdy and shockproof to endure even strong strokes, shocks and vibrations from industrial machinery.

LINE LIGHT endures the rough, wet and dirty conditions of the professional working environment within the industry and is resistant to both oil and chemicals. The IP67 classification means that it is resistant to both dust and water. LINE LIGHT is completely maintenance free.

// Reduced power consumption

Compared to traditional fluorescent tube lighting, the electricity consumption is considerably reduced when using LINE LIGHT which presents serious cost savings on electricity.

// Dimmer

With the dimmer function it is possible to adjust the light intensity stepless from 1-100% to meet individual working conditions. LINE LIGHT 2-POST and LINE LIGHT 4 are delivered incl. dimmer, and can also be bought separately and retrofitted on all existing LINE LIGHT installations.

COMPLETE lighting solution for automotive lifts

- Extremely powerful illumination of working area - improved lumen output
- Improve work efficiency and working conditions
- Avoid blinding the mechanic during work
- Adjustable lighting angle

// Compact design

Compared to traditional 36 W fluorescent tubes, LINE LIGHT provides an extremely bright and powerful illumination of the entire undercarriage. The slim and compact design leaves space for the center jack to pass.

// Easy DIY installation

As LINE LIGHT is a low operating voltage (24 V DC) system, you can easily do the installation yourself. All basic fittings are supplied with each kit together with power supply and cable. The pre-defined LINE LIGHT kits are considered universal and will fit the majority of all automotive 4-post lifts, regardless of the manufacturer or brand.

BEAM ANGLE
75°

Blinding of the mechanic during work is avoided, and the lamp itself can be turned to provide the optimum lighting angle during work.

// Certified and strictly approved

SCANGRIP's expert staff make sure that our lights meet all standards and regulations. Our work lights are manufactured at our own factories and subject to strict quality controls in full compliance with local regulations. Our lights meet the highest standards and are certified according to EU's regulations, directives, and harmonized standards. We are ISO9001 certified by Bureau Veritas.

// Chargers for all countries

Electrical plugs and voltages differ from country to country around the world. SCANGRIP offers chargers to all country variants worldwide. Go to our website for a complete list of chargers for our rechargeable work lights and all other accessories available.

Combine LINE LIGHT lighting units with power supply, cable and suitable suspensions.

A range of flexible suspensions makes it possible to position the lighting units exactly where you need it.

	MAGNET - With small clip - ø30 mm	03.5246	€ 15.90
	CLIP - Small metal clip	03.5213	€ 4.20

One lighting solution for all battery packs

JUST CONNECT

Compatible with AEG - AMPSHARE - BERNER - BOSCH - BOSCH GREEN - DEWALT - EINHELL - FEIN - FESTOOL - FLEX
HAZET - HIKOKI - HILTI - INGERSOLL - MAKITA - METABO - MILWAUKEE - PANASONIC - RIDGID - SNAP-ON - WÜRTH

With the new SCANGRIP CONNECT series, we have created a range of hybrid and innovative work lights compatible across all leading power tool brands - an outstanding lighting solution never seen before!

We connect the world of power tool batteries and professional work lights providing complete freedom to use a SCANGRIP work light regardless of your battery brand preference.

// Maximal freedom

The SCANGRIP CONNECT range is compatible with the METABO/CAS battery system* and all other 18 V/20 V battery packs from leading power tools brands. As something unique, we also offer a POWER SUPPLY which can be used for direct power providing unlimited availability to light. With stands and suspensions available, the work lights can be placed anywhere you need efficient lighting offering complete flexibility at the worksite.

Use your 18 V/20 V battery pack for SCANGRIP CONNECT work lights

Convert your SCANGRIP CONNECT lamp to a corded model with the POWER SUPPLY

An integrated battery backup function prevents you from being without light at any time

(Applies to NOVA 4 CONNECT, NOVA 10 CONNECT and AREA 10 CONNECT)

*Compatible with METABO / CAS battery system
For METABO / CAS no connector is required

SCANGRIP PRODUCT LINES
