## **Nederman Products for Vehicle Repair Shops**

# Exhaust Extraction Systems

Whenever there is a need to run combustion engine vehicles indoors, there is a need for vehicle exhaust extraction. Nederman offers solutions for both vehicles in motion and parked vehicles.

## Telescopic Extraction System

*Offers optimum flexibility and ergonomics. Can be applied on all types of exhaust pipes without need for change of nozzles. Touchless attachment eliminates risks of scraping the vehicle.*

## Exhaust Rail

*Rail system with combined exhaust extraction trolley/hose unit. One extraction unit can serve several workbays. The extraction unit is easy to move, thanks to light-weight material and ball bearing wheels.*

## Exhaust Hose Reel

*Reel with spring drive for easy handling (can be upgraded with motor drive). Automatic damper saves energy.*

## Exhaust nozzles

*An extensive range of robust rubber and metal nozzles to accommodate various types of vehicles and systems.*

- Rubber nozzles quick and easy to connect.
- Metal nozzles simple and robust, resistant to very high temperature exhaust.
- Emission test funnels and special design for handling large volumes of hot exhaust and for various types of exhaust pipes.

# Reels for power, fluid and vacuum supply

Nederman self retracting hose and cable reels make the job safe by eliminating hoses and cables on the workshop floor.

## Cable Reels and Hose Reels

For power, air, water, gas, oil etc. Simple to operate and safe to use.

## Vacuum Hose Reel

Facilitates the handling of vacuum hoses for cleaning of vehicles and workshop.

## PowerBox and Power Arm

Supplies compressed air, vacuum and electric power. Can be mounted on a PowerArm for extended working area.

# Lubrication and waste oil handling

Total solutions for storage, distribution of oil, grease, fluids as well as waste oil handling including storage tanks, pumps, guns, dispenser, pipings etc.

Nederman Monitoring System – NMS, records the quantities supplied to each vehicle.

## Manual Pumps

Ideal pumps for transferring low-viscosity non corrosive fluids in smaller installations.

## Pumps

Ideal pneumatic pumps for transferring low-viscosity fluids such as motor oil, waste oil, antifreeze, transmission oil, ATF oil, grease and other allied products.

## Mobile waste oil units

Flexible units in several sizes and shapes

## Mobile oil dispenser

Air operated mobile oil dispenser

## Mobile grease dispenser

Air operated mobile grease dispenser

## Meters and dispense units

For all types of fluids

# For all types of vehicles and any kind of workshop

Nederman's products and systems can be used for all types of vehicle – from cars to heavy vehicles. Our solutions are therefore widely used in the automotive sector.

- Automotive workshops
- Service facilities for cars, trucks, construction machinery, agricultural machinery, etc
- Vehicle inspection stations
- Emergency service stations
- Military Vehicle Depots

## **Nederman – world's leading supplier of products and systems in the environmental technology sector**

*With focus on clean air, safe and efficient workspaces and solutions for recycling - Nederman contributes to safer working environments and less environmental impact from industrial processes around the world. Nederman's offer on the market encompasses everything from the design stage through to installation, commissioning and servicing.*

*Sales and marketing are carried out via subsidiaries in 29 countries and agents and distributors in over 30 countries. Nederman develops and produces at its own manufacturing and assembly units in six countries.*

*Dantherm Filtration, with its primary focus on industrial air filtration, was acquired in 2010.*

*The Nederman Group is listed at the OMX Small Cap list. The group has around 1,500 employees and sales of around SEK 2 billion.*
